

PANACEA® Advanced
ML60® Replacement
Tube Gaskets

Prince's Hose gaskets are made with Prince's unique 6962 Special EPDM, which offers excellent sealing ability and corrosion-resistance. **Hose gasket life regularly achieves the life of the electrolyzer membrane, even without Teflon® armor, for users globally.**

Gasket Suggested Torque Specs:

- 40 N*m for Inlet
- 25 N*m for Outlet Hoses
- Easy-to-seal Curved Gasket Face lowers the bolt torque required to make a reliable seal. The curved gasket portion, when installed, faces the hose flange.
